Skyline

Skyline strikes an intriguing balance where sleek forms are set against natural character.

Inspired by the crisp, straight lines of current architecture, Skyline is built around clean simplicity while using white oak which could be considered the epitome of natural materials. This unexpected marriage makes contemporary style perfect in interior spaces where it would normally seem out of place. To express the full personality from the wood, the selection specifically uses split-heart white oak veneers. This approach highlights the wide range of white oak grain without the more traditional effect of cathedral patterns.

Skyline

010 SKYLINE SPLIT-HEART WHITE OAK VENEERS AND MIXED HARDWOOD SOLIDS WITH A SMOKE FINISH

Soft contemporary lines bring a modern vibe to the Skyline collection by American Drew. The simple shapes of Skyline almost conceal the complex joinery and angular elements within the design. It is in this spirit of subtle sophistication that the collection stands apart from all others.

Finishes ordered at different times are not guaranteed to match. Woods have grain and color variations due to growth patterns of each tree. The result is a beautiful and unique piece. Due to these variations, finishes on individual pieces are not guaranteed to match. The finish shown here has been reproduced as accurately as photographic and printing technologies allow. For the truest representation, please contact your American Drew dealer.

Care & Cleaning

Care of fine finishes: American Drew finishes are naturally resistant to minor everyday hazards and accidents; however, some precautions are necessary to maintain the beauty of your wood furniture.

- Dust with a soft clean cloth slightly moistened with water, and then dry completely with another clean cloth. Always rub in the direction of the wood grain.
- Avoid cigarettes, hot dishes, moisture and harsh solvents such as nail polish and alcohol.
- Do not place beverages directly on furniture.
- Use pads beneath accessories when writing or eating.
- Remove spills and smudges immediately.
- Pliable materials should not be left on a wood surface; they can damage the finish.
- Furniture should not be placed near heat, windows, or in direct sunlight.
